

How do I add a profile picture? (Avatar & Portrait)

Last Modified on 06/12/2024 11:06 am EDT

On MV, you have many ways to customize your profile and help members find you. We recommend uploading an Avatar and Portrait to attract fans to your profile. **You must have both an avatar and portrait for your content to appear in site searches.**

- **Avatar:** the picture that appears on your profile page
- **Portrait:** the picture that will appear on the Landers ([Club](#), [Top Earners](#), [Live](#), [Live Top Earners](#))

To add/edit or delete these:

- Go to your profile (drop down menu > My Profile)
- Click on Edit Profile
- This will give you the option to add each of the different profile images that will make your profile uniquely yours!

Profile Specs

Avatar / Portrait
20MB Maximum File Size Supported Formats: .jpeg, .jpg, .png
In alignment with our rules and to help us position ourselves when it comes to regulations, and censorship our industry faces daily, we ask that you take a proactive approach and include an SFW avatar and profile picture.
