

## How do I link my Social Media?

Last Modified on 09/21/2020 5:59 pm EDT

We believe that creating your brand and promoting yourself is everything! MV makes it easy for your fans to visit your social media profiles directly from our platform, by allowing you to link your social profiles from a variety of sites.

There are two ways to link your social media, the steps for each are provided below:

- 1) Go to the drop-down menu > Marketing Tools > Social Media and add the direct links to each of your profiles, then hit "Save".
- 2) Or, go to the drop-down menu > My MV > Settings > Social Media and add your social media links, then hit "Save".

You will also notice that you have the option to link your Twitter account and have your sales and uploads auto-tweet directly to your Twitter feed. For detailed steps on setting up your auto-tweets, check out our article [How do I link my Twitter to auto-tweet my sales?](#)
