How do I set a Goal for my Live room?

Setting an overall Goal for your Live room is a great way to get your fans working together towards a common goal! When you set a Goal, all visiting members will see it, and if anyone tips in any way it will contribute to the goal!

To set a goal:

- Click Add a Room Goal
- Specify the token goal
- Write a short description (max. 40 characters)
- Click SET GOAL

Some side info:

- *The maximum token Goal amount permitted is 9, 999.*
- *The maximum characters permitted for a Goal is 30.*

Now your Goal is set! Remember, you can always edit the title and amount for any active Goal, and you can always set a new Goal once the current one is met!
