

How do I report someone spamming my MV Live chat?

Last Modified on 10/16/2020 1:23 pm EDT

If you ever have someone spamming your live chat with unwanted "spam", you can report them by hovering over their username in chat and clicking "Report for Spam". Your trusted Moderator can also report users for spam! This action will remove all their messages from your chat, mute them from your room so they can no longer chat and also notify [MV Support](#) of the account for review.

This is an important tool to help keep MV safe and open for all so please be sure to report any member you feel should be reviewed!
