

What is the MV News Feed?

Last Modified on 05/30/2023 5:21 pm EDT

ManyVids has taken your social media to the next level and integrated a social network into the platform itself!

The MV Feed: Where the whole MV Community comes together to be heard; to love, laugh, share & bare everything.

Clicking News at the top of the ManyVids page will bring you to the [Official ManyVids Feed!](#) Find out what's new with the site, see featured models, enter in contests and tell us what's on your mind! Be sure to give a heart on each others posts and show the love that we all share!

The entire MV Team knows how important it is for the MV Community to stay connected, to be heard and show each other support. This is exactly why we're enabling all Creators and Members to express themselves freely, without the restrictions other social platforms have imposed on sex workers. **Join us!**
