

How do I choose my Content Preferences?

Last Modified on 07/30/2020 1:53 pm EDT

Personalize your MV experience and filter by your preference!

When you first enter MV, we will prompt you to select your content preferences (All, Straight, Gay or Trans). This will determine what account types are shown to you throughout the different parts of MV.

You can easily change your content preferences at any time! Simply click the preference selector in the top right of the page:

- **MV All** - Shows all content uploaded to MV! *Feeling adventurous?*
- **MV Straight** - Shows MV Girl, MV Boy Straight and Producer Straight accounts.
- **MV Gay Boys** - Shows MV Boy Gay and Producer Gay accounts.
- **MV Trans** - Shows MV Trans and Producer Trans accounts.

You can also edit this from your Settings (drop-down menu > My MV > Settings). Locate the section called **Content Preferences**, select your new preference, hit save and you're done!

Content Preferences

MV All

Personalize your experience by selecting which kind of content you want to see

- MV All
- MV Straight
- MV Gay Boys
- MV Trans
