Keep track of your latest sales and orders directly from your profile!

To locate your recent sales:

1. Go to the drop-down menu
2. My Earnings
3. From here, locate 'Recent Sales'

Your last sale or adjustment will be immediately visible and you can expand the list by clicking <View> [You can also view your earnings quickly from the Dashboard!](#)

By default, all recent sales are displayed in this section, but if you would like to view your sales by a specific type, you can do so by using the filter on the left hand side:
