

## How do I view my Followers on the MV FanClub?

Last Modified on 09/03/2021 4:11 pm EDT

Following other accounts is a great way to get new Followers, but what if you want to check out accounts you have already followed or have followed you?

To do so, simply go to your profile and click the 3-dots next to the "Notifications" tab. Click which will then display all of the people who follow you. Switching over to the sub-tab will show the Members and MV Stars that you follow.

You can also filter your Followers by using the drop down menu to the right.
