Congratulations on making a Store item sale! Your fans are loving your wares and are definitely showing you some love.

If you are wondering where you can check into a specific member's shipping details so you can send out physical items, your Recent Sales page will give you all the important information for you to do this!

All you have to do is to:

1. Click on the drop down menu
2. My Earnings
3. Recent Sales
4. Filter by Store

The screenshot shows the 'Recent Sales' interface. At the top, it says 'Recent Sales' and 'Last: \$3.59'. There is a 'Store' dropdown menu with a pink arrow pointing to it. Below this is a table with columns: Date / Status, User, Item, Title / Extras, Promo Code, and Total. The table contains four rows of sales data. The first row is for 'Lush Roses' sold on Jul 1, 2020. The second row is for 'TEST' sold on Jun 28, 2020. The third row is for 'Lush Roses' sold on May 29, 2020. The fourth row is for 'lasagna' sold on May 29, 2020. A pink circle highlights the 'Set Item Status' dropdown menu for the 'lasagna' item, which has options: 'Being Prepared' and 'Shipped'. A pink arrow points to the 'Shipping address' link in the 'User' column of the first row.

You can also update the status of their package as either *Being Prepared* or *Shipped* and this lets the Member know when they should start looking out for their package.
