

## Edit Vids Page - Title, Description and Details

Last Modified on 08/23/2021 4:58 pm EDT

Once you click on You will then be taken into the Edit page where you can add flair and drama to your newly uploaded vid as well as set it up to attract the right audience.

From here you can add the Title of your vid, a good enticing Description and you can see the technical Details of the vid you just uploaded

The screenshot shows a form with four main sections:

- Title (required)**: A text input field with a placeholder "Enter your title" and a "Forbidden words" link. An arrow points to the title label.
- Description**: A text area with a placeholder "max 5000 characters" and a "Forbidden words" link. An arrow points to the description label.
- Does This Vid Feature One Or More Co-Performers? (required)**: A dropdown menu labeled "Select" with a downward arrow. Below it is explanatory text: "Uploaders are required to declare all co-performers and submit documentation per the Terms of Use for Uploaders. For more details, please read: Co-performer Documentation." An arrow points to the dropdown.
- Details**: A section displaying technical specifications: "Size: 10.01 MB", "Length: 1:02 min", "Resolution: 1280x720 HD", and "File type: MP4". An arrow points to the details section.

### Title

Here you can add an eye catching title so your vid can easily be found. You can add a few keywords that best represent your vid so they can be pulled up when members do a search in the search bar.

### Description

Add a summary of what members will expect to see from your vid. You can be as detailed or as mysterious as you like. The search feature will also scan words that you use in the description to pull up whenever a search is made on the site.

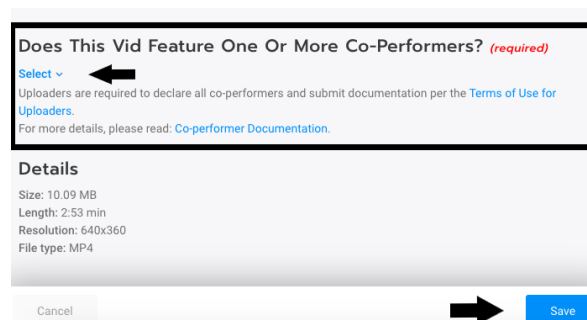

Please note: While we encourage creativity there are a list of *forbidden words* that you cannot use in both your Title and Description. To find out more, click [here](#).

### Details

Here you'll find some technical specs that the site has determined based off of the vid you've uploaded. This will be displayed in your vid's page.

### Co-performer Confirmation

You will need to confirm if the vid uploaded features performers other than yourself! Just click on the proper selection in this area:

This close-up shows the "Does This Vid Feature One Or More Co-Performers? (required)" section. It features a "Select" dropdown menu with a downward arrow. Below the dropdown is the text: "Uploaders are required to declare all co-performers and submit documentation per the Terms of Use for Uploaders. For more details, please read: Co-performer Documentation." Below this is the "Details" section, which lists: "Size: 10.09 MB", "Length: 2:53 min", "Resolution: 640x360", and "File type: MP4". At the bottom of the form are "Cancel" and "Save" buttons. An arrow points to the "Save" button.

Please note: Any changes made to the vid's information (such as title, description, pricing, etc.) on older vids will prompt to have you make a selection on whether or not there are any co-performers in the vid. You can visit our guide on how to do that [here!](#)
