Getting started producing your own content for your MV Profile is even easier than you think! In fact, you probably already have the tools you need to make an amazing vid right now! Most modern smartphones have a camera that's of a quality high enough to shoot fantastic footage. The same goes for many tablets and laptops as well.

We have all heard of music videos, great commercials and even full movies that were filmed with smart phones. With smart phones, it's truly possible and easy to create amazing footage.

You can buy a better camera to film content with if you want to, but it's really not necessary in order to get started.
