Promoting the launch of new vids to your fans on your FanClub is really an important step to making more sales. This helps you keep in touch with your fans and let them know when there are new uploads. Encourage them to follow you through the MV FanClub so they can get notifications when you've uploaded something new!

There are a lot of other ways to keep your fans up to date! On MV, you can use:

- [VIP FanClub](#)
- [MV Flyer](#)
- [MV Inbox](#)
