

## [Member] How do I access the vids in a Membership I just purchased?

Last Modified on 09/03/2021 4:55 pm EDT

To access vids that are included in your Membership purchase, you will simply need to click the drop-down menu at the top right of the page and select Purchase History. From this view, there is a drop-down menu at the top right, select Membership.

Alternatively, you can also visit the MV Star's profile and all vids that are included in the membership will be available for either streaming or downloading from there.

If you are having any trouble accessing your purchased Membership, please feel free to reach out to us [atelp@manyvids.com](mailto:atelp@manyvids.com) and we'll be happy to assist you further!
