

## Co-performer Documentation

Last Modified on 05/31/2021 5:27 pm EDT

# What do I need to prepare if I want to perform with someone else on ManyVids?

Every time you post content or stream Live with someone other than yourself, it is required to keep a copy of a fully completed *Co-performer Release Form* as well as a scan of their *valid government issued photo ID*. Be prepared to provide these to MV Support upon request within a reasonable timeframe, to ensure that your content is protected. For more information regarding record keeping requirements, please review section 3.10 of ManyVids' [Terms of Services for Uploaders](#).

## What are Co-performer Release Forms?

These are release forms that prove that you have the rights to distribute content featuring performers other than yourself, so you are permitted to upload them on ManyVids. While you are welcome to use your own release forms, we have a template available that can be downloaded on the site. You can find it here:

Drop-down menu>My MV>Settings>[MV Co-Model Agreement](#) (click the link to go directly to the form)

## I've uploaded a vid featuring someone else, now what?

You will then need to navigate to the vid's [Edit Page](#) where you will declare whether the uploaded vid features one or more co-performers. If your vid features other performers, you will need to follow the directions to upload your co-performer documentation.

You can add a maximum of 10 co-performers to each vid! Any content that features more than 10 co-performers, you'll be required to send the performer documentation to [help@manyvids.com](mailto:help@manyvids.com)

Co-performer verification is easy to do! Visit the article "[Co-performer Declaration](#)" for a complete guide on how to verify your co-performers.

The screenshot shows a form titled "Does This Vid Feature One Or More Co-Performers? (required)". At the top left, there is a "Select" dropdown menu with a black arrow pointing to it. Below the title, there is explanatory text: "Uploaders are required to declare all co-performers and submit documentation per the [Terms of Use for Uploaders](#). For more details, please read: [Co-performer Documentation](#)." Below this is a "Details" section listing: "Size: 10.09 MB", "Length: 2:53 min", "Resolution: 640x360", and "File type: MP4". At the bottom, there are "Cancel" and "Save" buttons, with a black arrow pointing to the "Save" button.

**Note:** When editing *previously uploaded* vids, MV Stars will be prompted to make a selection in the Co-performer declaration area before changes can be saved.

*Note: Your documentation will be reviewed once submitted and you may be contacted by a MV Team member for clarification.*

If you ever have any questions, feel free to reach out to MV Support by e-mailing [help@manyvids.com](mailto:help@manyvids.com) or chat with us using the Live Chat bubble, and we will be more than happy to help you out!
