

MV Live 80% Payout!

Last Modified on 07/01/2021 10:20 am EDT

The MV Team is excited to announce our new 80% payout for MV Live! This means that your token earnings will increase from \$0.06 to \$0.08 per token. This is a great opportunity to maximize your revenue, gain more exposure and connect with even more fans on ManyVids. Not only will you get an 80% payout by camming on MV Live, but MV Stars can expect an increase in profile sales by up to 25% within the first 3 months on MV Live!

At ManyVids, we want all MV Stars to get an equal opportunity to flourish on MV Live, and to help our Stars achieve that, we have removed the monthly MV Live Top Earners prizes and are instead offering an 80% payout to all MV Live Stars.

You may be asking why we've decided to to implement this change. This 20% increase is significant as it will benefit everyone who goes live, and offers all MV Stars the opportunity to enjoy an extra and well-deserved income each month. We believe that this change will create a fair advantage for all MV Stars streaming on MV Live, and everyone can rise to the top!
