Last Modified on 03/04/2021 4:52 pm EST

MV Stars have the option to allow or restrict access their MV Live Chat!

You can set your preferences directly from your Settings tab in your MV Live Room:

- To enable all members to chat in your room, simply toggle the setting to **Chat Enabled**.

- To restrict chat access for Members without tokens, you can toggle the setting to **Chat access limited**. This will only allow members with tokens to chat in your live room.
