

[Member] Is it FREE to chat on MV Live?

Last Modified on 04/01/2021 10:39 am EDT

Each live room is different. MV Stars have full control over their live rooms, and they can either let Members chat for free, or only allow Members with Tokens to join in the conversation. You can sign up and become a Member of ManyVids for FREE here: [Join FREE!](#)

Even though it is FREE to chat on MV Live with some MV Stars, it is also important to show your appreciation towards your favorite MV Stars. Show your support and tip MV Stars during their cam shows to encourage them for their hard work. It does not matter the amount of Tokens you tip, but it's very important to encourage adult performers with tips.
