How do I link my X account?

We believe that creating your brand and promoting yourself is everything! MV makes it easy for your fans to visit your social media profiles directly from our platform, by allowing you to link your social profiles from a variety of sites.

There are two ways to link your social media, the steps for each are provided below:

1. Go to the drop-down menu
2. Dashboard
3. Marketing Tools
4. Social Media
5. Add the direct links to your X profile
6. Click "Save"

You can also use this method:

1. Go to the drop-down menu
2. Settings
3. Click "View" next to Social Media
4. Add your X link, then hit "Save"

You will also notice that you have the option to link your X account and have your sales and uploads auto-post directly to your X feed. For detailed steps on setting up your auto-posts, check out our article [How do I link my X to auto-post my sales?](#)

How do I link my X to auto-post my sales?

Linking your X account to your ManyVids account is a great way to promote your content on X with minimal effort on your part. Your sales will be auto-posted based on the frequency you choose. Here's how to set that up!

1. Go to your drop-down menu
2. Dashboard
3. Marketing Tools
4. X promo blaster
5. Click "Link your account" and follow the prompts to allow MV to access your account

To further customize your auto-posts:

1. Go to your drop-down menu
2. Marketing Tools
3. [MV Promo Blaster](#)

There you will see the different frequency options for how often you want your sales to be auto-posted!

How do I use the site Promo Blasters?

Club Promo Blaster

On ManyVids we believe that celebrating success is so much more fun when shared with all your fellow MV Creators and adoring fans! To help you do just that, we have introduced the **Club Promo Blaster** !

To activate this feature:

1. Go to your drop-down Menu
2. Dashboard
3. Marketing Tools
4. Club Promo Blaster

Each time you make a sale, a promotional post is generated and auto-posted to your feed. You can set the post frequency set to each, 2nd, 5th, 10th, 30th, 50th sale, or an option to select 'Never'.

Auto-Sales and Upload posts appear under the Club 'All' Tab. Account owners will see activity and posts from users they follow in their 'All'

X Promo Blaster

The **X Promo Blaster** is an automated feature that you can turn on and link to your X account so that'll Post when you make a sale and link to the vid being sold. This is a great way to promote your content automatically!

ManyVids has great traffic internally but this is a powerful and fantastic way to engage your fans outside of the platform as they get to see what vids are popular, discover new content, and get curious about the vids you're selling on your MV Profile!

When you [link your X to your MV account](#), the X Promo Blaster will automatically be set up to your account.

You can adjust the frequency of the auto-posts by:

1. Clicking the drop-down Menu
2. Dashboard
3. Marketing Tools
4. X Promo Blaster (<https://www.manyvids.com/MV-promo-blaster/>)

ManyVids always seeks to provide creators with options. You can choose the frequency for the auto-posts being sent out and you can turn it off, or on and off, as you see fit! Choose between auto-posts every 2 sales, 5 sales, 10 sales, 20 sales, 50 sales or never if you wish to turn it off. We'd like to point out that X does have some parameters in place against spam, so we're limited to a certain number of auto-posts sent out per hour. If you sold a vid and **don't see an auto-post**, it could be that we've reached the limit. We have no control over this X limit.

You can also choose between posting a teaser vid, or a screenshot, under the "Post Type" selection:

Be sure to 'Save' your changes!

So, this is a feature for X...should I still be active on X or let the Promo Blaster take care of promo for me?

We recommend being active on all social media channels and outlets to maximize the number of eyes on your content! Interact with your fans, promote your content, talk up your free vids, post pics, chat with your peers, put yourself out there and have fun doing it. You'll make new fans, new friends, and new sales.

How do I send a Broadcast?

Broadcast is a mass-messaging tool that lets you send direct messages to all your followers at once!

Broadcasts can include text, pics or vids! You also have the option to send **Pay to Open messages**. This is a great tool to use if you want to share a promo code, let your fans know about sales and any new vids or store items that you've uploaded!

Your Broadcast is located in your inbox (click the chat icon in the top right corner):

Anything you send from here will go out to all your followers, and new followers will have access to previous Broadcasts. Your followers will also receive notifications so they know to check. We're sure they'll be happy to hear from you! :)

How do I create a Promo Code for my store?

To create a promo code to share with your fans:

1. Go to the drop-down menu
2. Dashboard
3. Marketing Tools
4. Promo Codes (<https://www.manyvids.com/Promo-codes/>)

The initial page will have a full history of your promo codes allowing you to edit and re-activate previous Promo Codes. To create a new code, click Create New Promo Code (blue button) and fill out your promo details!

For each promo code you create you can select a title, promo code type (*markup codes increase the price of a sale, this is generally used for financial domination fetish*), discount percentage, item/services it applies to, if it applies to items currently on sale (that are already marked down) and the date range of the promo code for when it will be active and when it will deactivate. Don't forget to save the changes!

You can share promo codes on your Activity, **Broadcast**, **Club** on your social profiles or wherever you like! Members will be prompted to use this at checkout and it will only work on your own store.

Please note, if a member uses a promo code to pay for a service that is recurring, they will continue to pay the promo code/ discounted price as long as they continue to auto-renew, this is also true if you edit the price of that service.

Why aren't my X auto-posts sending?

Intro

If you **connected your X account to your MV account** but your auto-posts aren't appearing on X, the reason is almost always the caps X imposes on automatic posts.

X caps automatic posts

X has **several** caps that can prevent some auto-posts from appearing:

- Overall daily cap for MV is 10k posts--this includes all posts from all accounts on MV
- Overall monthly cap for MV is 300k--this includes all posts from all accounts on MV
- X caps auto-posts to 100 posts per user, reset every 15 minutes. **This cap includes posts from any other platforms you might be using.**

These caps are the cause of the overwhelming majority of issues with auto-posts, and if reconnecting your X (see below) doesn't work, then the issue is almost 100% caused by cap imposed by X. Due to the high volume of auto-posts sent out by MV, we regularly hit these caps.

If you have other sites that are sending auto-posts on your account, you can adjust your post frequency by going to your drop-down menu > Dashboard > Marketing Tools > X Promo Blaster as this is where you can change the frequency of your auto-posts for sales to see if it's set to your liking.

Relinking your X

NOTE: If this troubleshooting doesn't resolve the issue, it means that the MV is hitting X's auto-post caps. These caps are imposed by X and we aren't able to bypass them. See the previous section for details.

You can try to unlink and relink your X account to your MV Account, as this often solves any potential issues with MV's link to X. To do so, go through the following steps:

1. On X, go to Settings & Support > Settings and privacy > Security and account access > Apps and sessions > Connected apps > ManyVids App > "Revoke app permissions" (This must be done prior to relinking your account or the issue will persist).
2. On ManyVids, go to your drop-down menu > Dashboard > Marketing Tools > X Promo Blaster and remove your X URL, click 'Unlink X account' then save.
3. Add your X link again and hit Save, then click "Link X account", enter your X login credentials and hit "Authorize app".
4. Mark your posts as sensitive on X by going to your Settings > Privacy and Safety > Your posts > Mark as sensitive
5. After relinking your X, be sure to go to your drop-down menu > Marketing Tools > MV Promo Blaster to set your auto-posts to your liking.

I see other Creators' auto-posts. Why aren't they hitting X's post caps when I am?

The short answer is that they are! **Whether or not an auto-post appears is a matter of timing.**

X's post caps reset after a certain time period. This means there is a window in which auto-posts are possible. If a sale happens after the cap resets, but before we hit the cap again, then the auto-post will appear on X without issue.

If your posts aren't appearing, but other Creators' are, the reason is that their sales occurred before the post limit was reached.

Tips for becoming a successful Creator!

MV is an adult social media platform that gives you a storefront from which you can sell your content and generate revenue. Like all social media sites, being active and engaging with fans is the key to becoming successful. Here are some tips to get noticed as a successful content creator:

At ManyVids, we want all content creators to thrive and be as successful as possible. To help Creators gain exposure and drive traffic to their MV Profiles, we have set up a new promotional tool called MV Ads. This feature has been in the works for quite

some time, and we are pleased to offer MV Ads for free until further notice.

This opportunity will be available to all Creator types. Each Creator selected will have a vid of their choice appear there for an entire 24 hours!

- Choose a vid from your MV Profile that follows all our [Content Rules](#)
- Post the link to the vid you would like to have appear as an MV Ad
- Include the hashtag #MVPromo in your post

Creators - Premium Content Library

We are excited to feature Creators and their content on the Premium Membership Content Library!

With Vids linking back to Creator profiles, our Premium Members will become supporters and fall in love with the content you offer. For the time being, we are kickstarting this project with content from select Creators but will continue exploring new ways to extend this offer to more Creators so everyone in the MV Community can benefit from this initiative!

Check out our FAQ below, and as always, if you have any additional questions, reach out to our MV Support team - help@manyvids.com

How is this a benefit to the community?

Given our Premium Members are such loyal users, we wanted to give something back. We hope to give our Premium Members even more reasons to keep coming back and seeing our amazing creators. In 2023 we expect to bolster our offer even more with additional perks for our Premium Members which they can use to support their favorite creators.

How do I get my content added to the Premium Library?

If you have any interest in submitting a piece of content to be part of the Premium library, we encourage you to reach out to promo@manyvids.com, and someone from our team will get back to you as soon as possible!

Will ManyVids be adding Gay and Trans content to the Premium Library?

We love and appreciate our LGBTQIA2+ community, we acknowledge the omission in our first release of this feature, and we're working hard on the tech side to make it possible to offer a fully diverse and inclusive library while giving Premium Members the necessary tools to sort and filter per their content preferences. This is a top priority, and we'll keep the Community updated as this new feature evolves and we expand our library in the near future, so that more Creators can benefit from this initiative!

- Store Items
- Tips
- Contest Votes

To create a buzz around this exciting event, we're encouraging Creators to use the hashtag #FirstMVSale and tag @ManyVids on their promotional posts for a chance to be reposted and shared. We'll be showcasing the very best content throughout the month, giving Creators an additional opportunity to earn more and gain visibility.

The "Love At First Sale" Event is not just a promotion; it's a golden opportunity for ManyVids Creators to unleash their creativity, make that first sale, and boost their earnings. Let February be the month you take your ManyVids journey to new heights!

So, if you're a new ManyVids Creator or have been contemplating joining or using the platform, now is the perfect time to dive in – the sky is the limit!
