In the Account section of your Settings, you can also add your various aliases to make sure you turn up in searches under other names people might search for you by!

Need to update or edit other options in your account? Visit our Help Center section [Account Settings](#) for information.

How do I manage discounts on my profile? (Discount Manager)

If you're looking to add a discount or have a sale on your MV Profile, the Discount Manager is the tool is for you!

Having discounts and temporarily offering lower prices is a fantastic way to attract and engage your fans and make loyal new fans. You can have a sale for a specific reason: as a holiday promotion, to highlight older vids, to get Members to visit your profile, to give your fans a treat... you name it! It's an all-around amazing method to reach whatever goals you may have as a creator.

You can set up a big sale on multiple vids at once by applying a discount percentage and selecting a time period for how long the sale runs. You can also put just one individual vid on sale by editing that vid and selecting the discount percentage on the vid edit page!

You can also decide that you don't want to put anything on sale. It's your choice!

How do I create a discount on my store items?

To create a discount on your vids or store items:

1. Go to the drop-down menu
2. Click Dashboard
3. Find Discount Manager under Marketing Tools
4. Select "Vids" or "Store" at the top
5. Drag the items from the left box to the right to set those as the items for discount.
6. From there you can select the percentage of the discount (from 10% to 75%)
7. Chose the date the sale begins as well as the date it ends (the times are based on your time zone)
8. Make sure to hit <Save> when finished!

- [stagename.manyvids.com](#)
- [stagename.manyvids.com/club](#)

Your Name = Your-Name.manyvids.com/club*

This link is great for use for promotional materials, social posts and anywhere you're looking to promote your page or services.

What is my MV Score and how do I increase it?

Your MV Score is a breakdown of the points you earn as an MV Girl, MV Boy, MV Trans and MV Producer. You'll be able to view your score in your settings!

- Click the drop down menu
- Settings
- "View" next to MV Score:

Your MV Score determines your placement in an account category on the Creators page. For example, if an account is ranked as MV Girl #1, this means that the account had the highest MV Score, and they would be featured at the top of the MV Girls category page.

What are the benefits of having a high MV Score? Your profile has a better chance of exposure which could drive sales and increase traffic to your page. The MV Score is also an element taken into consideration for our search algorithms, so it plays a role in vid search results - another sales booster!

How do I start earning points for my MV Score? When you first sign-up to MV you can gain base points just by completing certain sections of your profile and these points will always be on your profile!

To earn base points, you'll need to do the following:

- Upload 10 or more vids ([How do I upload a vid?](#))
- Offer services (Club, Custom Vids) ([What is my Club and how do I set up this service?](#) and [How do I offer Custom Vids on my Profile?](#))
- Set up a Vid Bundle ([How do I set up my Membership?](#))
- Upload 10 or more store items ([How do I add a Store Item?](#))
- Link your X ([How do I link my X to auto-post my sales?](#))

Anything else that increases your score accounts for the last 45 days of activity, so it's important to stay active! Anything before those 45 days will fall off of your MV Score, this gives everyone a chance to reach for the top!

Here's a list of things that can **increase your score**:

- Earning tokens on MV Live (*Please note: tokens must first be converted to earnings to increase your score*)
- Maintaining a steady upload of vids and store items
- Members liking your vids
- Sales of your vids, services, & items
- Getting reviews from members
