

Edit Vids Page - Co-performer Declaration

Last Modified on 10/21/2021 12:45 pm EDT

All MV Stars are required to declare their co-performers and submit their co-performer documentation when uploading content.

Before you publish a vid, you will need to confirm if the vid uploaded features performers other than yourself! Just click on the proper selection in this area (see below).

Does This Vid Feature One Or More Co-Performers? *(required)*

Select 

Uploaders are required to declare all co-performers and submit documentation per the [Terms of Use for Uploaders](#).
For more details, please read: [Co-performer Documentation](#).

If your vid features co-performers, other than yourself, you'll need to select 'Yes' in your declaration. Once you make that selection, you'll be prompted to enter the details about your co-performers!

Does This Vid Feature One Or More Co-Performers? *(required)*

Yes 

Uploaders are required to declare all co-performers and submit documentation per the [Terms of Use for Uploaders](#).
Producer accounts are required to declare and submit documentation for all performers other than the verified account owner.
For more details, please read: [Co-performer Documentation](#).

Next, you will have to indicate whether your co-performer(s) is an MV Star or not, and complete the requirements for the situation that applies to your content.

Adding co-performers who have not been verified on MV

For vids that do not feature MV Stars, you will need to upload the required co-performer documentation for your co-star(s). Simply, select and upload **all** the documentation for the featured performer, in one go. If you have more than one co-star, click on "Add another performer" to upload the next performer's documents. You can find details about our co-performer documentation in the article: [Co-performer Documentation](#).

Co-Performer 1 Remove

If the co-performer is not an MV Star, please upload all necessary documents verifying their age and consent.

Co-performer is not an MV Star
 Co-performer is an MV Star

Drop ALL files here or
[Select ALL files to Upload](#)

All co-performer documents (Photo ID and Release Form) must be selected and uploaded at the same time.
Supported files types are pdf, doc, txt, png, jpg. File must be under 5MB. A Maximum of 10 files can be uploaded.

+ Add another co-performer Submit Documentation

When you've added all the necessary documentation, hit "Submit Documentation". Once you do so, you will not be able to edit or add more files for a performer.

What happens if I upload the incorrect file? To remove documents for the first co-performer (Co-Performer 1), you can only do so by overriding the existing document or refreshing the page (this will remove all documentation uploaded for all co-performers). To replace and override an existing document, simply select and upload another document in its place. You will need to go back to the same co-performer entry and select 'Upload' then select the correct documents. Please note: this can only be done prior to submission. For all other performer slots (Co-Performer 2 and onwards), where you need to replace files, you can click on the 'Remove' button and it will delete the entry. This will allow you to add the co-performer again and submit the correct file(s).

Co-Performer 2 [Remove](#)

If the co-performer is not an MV Star, please upload all necessary documents verifying their age and consent.

Co-performer is not an MV Star
 Co-performer is an MV Star

Drop ALL files here or
[Select ALL files to Upload](#)

All co-performer documents (Photo ID and Release Form) must be selected and uploaded at the same time.
Supported files types are pdf, doc, txt, png, jpg. File must be under 5MB.
A Maximum of 10 files can be uploaded.

+ Add another co-performer
Submit Documentation

Please note: Refreshing the page will remove **all** files, for **all** co-performers at the same time; and you will need to start the declaration process from the beginning.

Adding co-performers who are verified MV Stars

It's so easy adding MV Stars to your vids! If your vid features another MV Star, you simply need to enter their MV username (stage name) in the box below your selection. To do so, type or paste their stage name in the blank box. A list of stage names/MV Stars should populate. From there, select your co-performer(s) stage name. Click 'Add another performer' if you have more than one co-star. When you've added all the featured MV Stars in your vid, hit "Submit Documentation". Once you do so, you will not be able to edit any co-performer details.

That being said, encouraging your co-performers to get verified as MV Stars will help simplify the process when uploading content.

If MV Star within your content does not auto-populate for selection, simply declare them as a co-performer and submit their ID and release form with the upload.

Co-Performer 1 [Remove](#)

If the co-performer is not an MV Star, please upload all necessary documents verifying their age and consent.

Co-performer is not an MV Star
 Co-performer is an MV Star

Select MV Star

+ Add another co-performer
Submit Documentation

What happens if I add the incorrect MV Star? You can edit the MV Star details directly on the entry. Just click inside the box, you'll be able to delete and/or the MV Star name. To remove a co-performer, you can click on the 'Remove' button and it will delete the entry (this only applies to Co-Performer 2 onwards). Refreshing the page will remove **all** entries, for **all** co-performers at the same time; and you will need to start the declaration process from the beginning. Please note: Editing or removing any co-performer can only be done prior to submission.

Co-Performer 2 [Remove](#)

If the co-performer is not an MV Star, please upload all necessary documents verifying their age and consent.

 Co-performer is an MV Star

Select MV Star

Can I add verified MV Stars and non-verified MV Stars to the same vid? Yes, you can add various co-performer slots for one vid if it features MV Stars as well performers who have not been verified on ManyVids.

How many co-performers can I add? You can add a maximum of 10 performers to your vid!

What if my vid features more than 10 performers? Simply, send all of your performer documentation to help@manyvids.com to get your performers verified!

What happens after I submit my documentation? Once you submit your documentation, it will be reviewed by the MV Team, and you may be contacted by an MV Team member for clarification.
