

RocketGate & RocketPay Information

Last Modified on 04/01/2023 6:46 pm EDT

RocketGate is MV's main payment processor. They offer a feature at checkout when paying with a credit card called **RocketPay** which saves your checkout information for ease of use on future purchases. For information on how to edit your RocketPay details, you can visit <https://rocketpay.net/faqs>.

Please note, RocketGate is a PCI tier 1 compliant payment gateway. This means they securely and safely store cardholder data (once you have made a purchase). They are approved by Visa, MasterCard and other card brands to provide services to cardholders.

If you wish to have your information removed from RocketPay completely, please contact MV Support via help@manyvids.com with your request and we will ask that RocketGate remove your details.
