What is "Broadcast Blast"?

The "Broadcast Blast" is a limited-time promotion on ManyVids where Creators are encouraged to use the Broadcast feature (formerly MV Flyer) to share their content links and have the chance to win promotion!

During the promotional period, we invite Creators to send links to their Vid Bundle through a Broadcast message. The top 3 Creators who earn the most revenue from that specific service via Broadcast during the promo period will each receive a social promo and and be included in the Ad Spot rotation for 7 days.

Tips to Get the Most Out of the Promotion:

- **Engage with Your Audience:** Actively interact with your audience during the promotional period to boost your Broadcast's reach and impact.

Remember, promos are in Eastern Time (ET), so make sure to plan accordingly!
