

## [Members] How do I edit my "About Me" page?

Last Modified on 02/05/2024 5:20 pm EST

To edit your 'About' section:

1. Go to your profile (Drop down > My Profile)
2. Click "Edit Profile":

3. Now you'll be able to add your details! Make sure to hit save once you've added everything:

A screenshot of the 'EDIT' profile form in the app. The form has three tabs: 'Avatar', 'Portrait', and 'About', with 'About' currently selected. The form fields include: a date field with '12/07/1999'; an 'Ethnicity' dropdown menu with 'Choose' selected; a 'Location' text field with 'united states'; a 'Hair Color' dropdown menu with 'Choose' selected; a 'Body Type' dropdown menu with 'Choose' selected; and an 'Orientation' dropdown menu with 'Straight' selected. At the bottom of the form, there are two buttons: 'CANCEL' on the left and 'SAVE' on the right.

Fun fact: you can gain 75 points towards your MV Score just by filling out this profile section!

The following information will be visible on your profile for your fans to see:

- Bio

- *Date of birth*
- *Ethnicity*
- *Location*
- *Hair Color*
- *Body type*
- *Orientation*

This info will help you show up in site searches when Members use our advanced search filters. You can find more info on that here: [How do I search for vids on ManyVids?](#)
