

Live Recording

Last Modified on 04/03/2025 12:21 pm EDT

Live Recordings is back!

Creators can now capture their live magic and easily access recordings on the Vid Upload page for seamless editing and posting to your Store.

In a single click, you can now record both public and private shows and both on desktop and mobile.

To start recording, simply click on Record once you have gone Live:

To stop recording, click End Recording:

You may save several recordings during a Live Session and they will be saved.

There may be a slight delay between ending the recording and the vid appearing in Vid Upload page where you may edit your details and launch to your profile.

Vid recordings must be over 60 seconds to save or you will receive the following reminder:
