

## Wishlist

Last Modified on 07/30/2025 11:59 am EDT

## What is Wishlist?

Wishlist is a new feature that allows Creators to add items from other Creators to their own Wishlist. These items can then be purchased for creators by Members or other Creators.

---

## How it Works for Creators:

- When logged in as a Creator and visiting another Creator's **Profile > Items tab** or **Profile > Wishlist tab**, you'll now see a **"Wishlist" button** on each item card (if they have a Wishlist).
- Clicking the button adds the item to **your own Wishlist**.
- This same Wishlist button is also available on the **Item Details page** when logged in as a Creator

## What Members & Other Creators Will See:

When anyone visits a Creator's Wishlist and clicks either the **Wishlist Item card** or the **Cart icon**, they'll be taken to the **Wishlist Checkout page**.

The checkout visuals will clearly show that the purchase is for the Wishlist **Recipient**.
